About Us

We Charminar Polymers have more than decades of experience in a variety of filaments manufacturing. Our policy is high value of delivering our commitments.

Using imported technology to extrude unique quality filaments. Our advanced technology with highly trained staff helps us in chemical tapering & for mechanical flagging. Also we have R & D team & well equipped laboratory.

We are professionally able to design different sizes /color/ shade / mixings / imitations / smoothness points etc.. By a blend of our experience and technology. We are focusing on meeting tailor made demands of our associated customers.

Benefits of using synthetic filaments of Charminar Polymers.

- Established faith in the painting tools industry with long experience in brushes.
- Large manufacturing capacities can offer reliable quick deliveries.
- Ability to discuss possible solutions to keep winning business.
- Can offer tailor made products against customer specific requirements.
- Share experience and not only products with our customers.
- Our team ensures consistent quality and proper sample testing before dispatch to customers.
